

SAN DIEGO, CA - MARCH 2024

Blue Tech was awarded a competitive acquisition with the Department of State (DOS) Radio Programs Branch (RPB). This 5-year IDIQ contract is valued at approximately \$16.37M and provides repeater kits, along with spare parts, maintenance, and training for DOS staff. Blue Tech partnered with Communications International (CI) and Tait Communications on this opportunity.

ABOUT BLUE TECH INC.

Blue Tech Inc., based in San Diego, is an experienced technology provider to the federal government. Founded in 1984, Blue Tech has accumulated decades of strong performance operating as a prime contractor on many of the Government's most popular technology contract vehicles. These contracts include NASA SEWP V and NIH CIO-CS which are open for use by all federal agencies and state governments leveraging federal funding. Additionally, Blue Tech is a prime contractor on the Department of Homeland Security's FirstSource II, the US Army's ADMC-3 and ITES-SW2, and 2GIT which primarily supports the US Air Force, as well as numerous other agency-specific contracts. Blue Tech is an SBA-certified HUBZone and Woman-Owned Small Business (WOSB) and is ISO 9001:2015 and 20243:2018 certified. Blue Tech fulfills over 5,000 contracts annually for IT equipment, software, and IT solutions and services.
